John Showler: Rogate

7th November 2019

Ref: Lenham, Kent

AREA 1

Strip, Map and Sample of Area 1.

Cost will be £57,500.00 (no vat) and to include all archaeological work on site in the proposed excavation area and to include survey and specialist services but do not include burials.

Machinery and welfare/HERAS at cost or provided by principal contractor.

The quote includes an initial RAMS and interim Archaeological Report.

AREA 2

Strip, Map and Sample of Area 2.

Cost will be £750.00 (no vat) and to include all archaeological work on site in the proposed excavation area and to include survey and specialist services but do not include burials.

Machinery and welfare/HERAS at cost or provided by principal contractor.

The quote includes an initial RAMS and interim Archaeological Report.

Our quotation covers working to an approved Written Scheme of Investigation (WSI) for the Areas (Figure 1), project management throughout, all fieldwork labour, travel and associated expenses, processing and specialist examination of artefacts but not including soil samples or burials, compilation of a fieldwork assessment report, and all costs associated with preparation and deposition of the project archive.

The fieldwork would be carried out by a SWAT accredited archaeological team, the precise duration on site dependant on the complexity and/or significance of any archaeological remains discovered. The draft assessment report will be ready for your review within 4 weeks of completing fieldwork and for your information I have also enclosed a copy of our standard Terms and Conditions.

Yours sincerely,

Paul Wilkinson

Dr Paul Wilkinson PhD., MCIfA., FRSA
