- WLL Window Head Level
- Sloping Roof
- (Sloped Ceiling Plane up)
- (Arched / Vaulted Ceiling)
- Building Line / Wall Line
- Detail Centre
- Chimney Detail
- Parture
- Ceiling

NOTES

All levels are related to the Ordnance Survey national grid by means of GPS using the Leica SmartReceiver 5700 receiver.

All dimensions are in meters.

Do not scale from this drawing.

Where built up components are present, the level has been measured on the wall line and not the surface.

Roofing and bracing has not been measured except where the wall line and not the surface.

All measurements are given to reading (unless stated) and are rounded up and reported as average.

All window head and window c/l levels are internal measurements.

Ceiling height measurements are taken to a point which best represents the general room height.
